Meeting starts at 7:03

Officer Reports

ICEBREAKER with the board and new members

Mark Millimet (Chairperson) – So like I said, Welcome to Touch-N-Go Productions General meeting that happens every Thursday.

Dustin Gibson (Vice-Chairperson) – Thank you everyone for coming to activities fair. I hoped you all enjoyed the ice cream. We gave out about 650 servings.

Jesse Zumek (Administrative Coordinator) – Hi Everyone! So for those people that were at the last movie know how packed it was. From what I heard, there were people sitting on the floor. So for this next movie, we are going to set up a couple rows of chairs. Oh! And also make sure if it is packed that no one sits on the stairs as it is a fire hazard.

Alex Blymire (Productions Manager) – Make sure to wear closed toe shoes during stage setup. Stage training will be on the Saturday after Monte Carlo night. I encourage all of you to come out. I will talk more about that when we get to it. End report.

Virat Parikh (Promotions Coordinator) – The Marketing committee meeting was good. At the end of the magician, I found an A frame being taken apart by someone. If you see anyone tampering with the A Frames, please let me or one of the Exec. Members know, because the screens on the A Frames are expensive and easy to break. Especially if you do not know what you are doing, you could break them.

Gopi Thotakura (Security Coordinator) – So like Jesse said, we have a lot of people coming to the movie Transformers tonight. So I would love to see you guys at security call. Also, if you know anyone that can deal, ask them to come to Monte Carlo Night.

Keith Alvares (Budget Manager) – No report

Taylor Fazzini (Hospitality Coordinator) – No report

Mu’az Pawane (Sound) – Drew and I need to do some cleaning in the sound room. Also, if you know us, we like to hand out rewards for working hard during setup handling cables and speakers. So I would like to give out an award to the person that is known for laying down the cable path, and that is Chris Silvano.

Jessica Searcy (Advisor) – No report
Event Review

Magician Daniel Martin  
Friday, September 5th | Student Center

Mark - Over 350 people attended the event and we ran out of chairs. For you first timers, this is when we ask for your feedback. So does anyone have any feedback for the event?
Marcus – He really set it up well
Micah - I really liked him. He should come back.
Chris - He really grabbed the audience’s attention.
Mark- Any other feedback for the show?

Activities Fair | Liquid Nitrogen Ice Cream  
Tuesday, September 9th | Legacy Walk

Mark - How many of you enjoyed the ice cream?
Shelby – My university 101 class really liked it. That is all my class talked about.
Chris – If we could address the line, it kind of got out of control
Mark – Yeah we are working on ways to address that.

New Business

Programming Discussion

Mark - Alright we are going to have a discussion. What event have you been dying to see come to campus?
(Pause) Alright ponder on it and we will come back.
Drew – Decade month
Mark - One cool thing that we could do involves having each week of one month represent a different decade in history. For example, week 2 could be the 70’s. Week 2 could be the 80’s or the 60’s.
(After going through some of the other topics on the agenda)
Mark- Going back to decade month. Does anyone have any ideas?
Carl – So not exactly related to TNG, but does anyone want to start a flag football league. I was thinking we could start our own TNG team and that is why I brought it up.
Drew – Can we bring back Bongle Ball?
Mark – We could do that. I will look into it.

Marketing Committee

Virat – Marketing Committee is a small division in TNG that was started last spring that focuses on Photoshop and promotions. It is certainly a lot of fun. There are positions open in the committee. Anyone can apply. If you go on to TNG’s page on ERAU connection, you will find the application.
Weekly Movie Program  
→ Ideas?

Mark – Like Jesse mentioned earlier, the first few movies have been packed and we would like your input on the situation. Does anyone have any ideas for the movies?
Drew – I really like the UC movies.
Mark – UC movies are great, but we can only place forty more chairs in the student center.
Micah – Outdoor movies are an idea.
Mark – Outdoor movies are a great idea, but that is a lot to do before 8:30 and we will be exposed to the elements.
Michael – Can we do multiple showings?
Mark - We thought about multiple showings, but extra showings costs extra money. As a last resort option, we will have multiple showings.

Co-Sponsorships
Monte Carlo Night | Lambda Chi Alpha
Student Center | September 19th | 8:00pm
Setup 5:00pm | Security 7:30pm | Dealers 7:00pm

Mark - So Monte Carlo night is a fantastic time to play some Blackjack or poker. We give away over a thousand dollars in prizes and we have pizza too. Questions for Monte Carlo night
Chris - How can we identify dealers? Because I know that has been a problem in the past.
Mark - Yeah we can certainly use the extra SGA t-shirts we have in the office. Lambda Chi Alpha knows that we will be supplying some dealers. They will have some of their own too. One last thing, our goal is to keep the tables open all night.

Event Advance
TNG Weekly Movie | Transformers: Age of Extinction
IC 101 | September 9th | 8:30pm
Security Call 8:00pm
Mark - We are expecting a pretty decent turn out

Stage Training | Student Center
1:00pm – 3:00pm
Alex – We go through setting up the full stage and lights. We also learn how to wrap cables. It really helps maintain a safe atmosphere during setup. Also, general members it takes two hours and is a fantastic time. It is always good to review a couple things just in case you have forgotten something.
Old Business

First Year Initiative

Mark - A program in the SGA, it is a mentorship program that helps you learn more about the SGA and Touch-N-Go. You get paired with a mentor. It could be any one of us (points to everyone on the Executive Board) or somebody else in the SGA and you can ask him or her any questions, get help with homework. Your mentor will be there to help you through your first year.

Sound Applications

Moo - The applications are still open until midnight if you want to apply. We will be grading them another day when I have had some sleep. I will certainly be very sad when I have to turn people away though.

National Association for Campus Activities (NACA)

Mark - If you would like to apply for NACA you can go on to TNG Productions connection page to apply. It takes place every year and regionals are in Myrtle Beach. NACA is where we find a lot of our acts. You can apply for NACA for your first year.

→ Mr. Drew Cavanaugh

Drew - I applied to NACA and I had no know idea what it was but I had a fantastic time with my TNG buddies watching and selecting new acts for TNG. Overall, I had an absolute fantastic time so definitely apply.

Mark - Yeah so you can see Drew was a first year student that had no idea what it was, but had a great time. So I encourage you first year students to apply.

Meeting Ends at 8:03
